

## GOING TO THE DOCTOR DURING PANDEMIC - CHILD

Going to the doctor or dentist might look different now.

When I get there they might take my temperature and ask me if I'm feeling okay.

I will need to wear my mask and clean my hands before I go in.

The doctors and nurses will be wearing masks too. They may even wear a cool face shield or special goggles!

They will take care of me to make sure I'm feeling good again soon.

My doctor and dentist help me to stay healthy and feel good!
