

Visual Supports (Part 1)

<p>Visual Schedules Help with communication and limited verbal language. Tell you where to go and in what order.</p>	
<p>First and Then Helps in completing non-preferred tasks. Non-preferred tasks come first then a preferred task.</p>	
<p>Choice Boards Gives students choices on what they can do or use. Helps with communication.</p>	
<p>Visual Boundaries A visual representation of where you want them to be. Must be explicitly taught.</p>	

Visual Supports (Part 1)

Task Analysis

Taking a large task and breaking it down into smaller steps.

Timers

Help with transitions. Many can be found online for free.

Token Economy

Used to complete a task or activity. Uses positive reinforcement. Individuals trade tokens for preferred items/activities.
