

Movie Theatres - Accessible Options in Albuquerque

New Mexico

Accessibility in this context refers to ease of access using a wheelchair, free use of accessibility devices (see descriptions at end of document), the availability of sensory friendly showings, etc. Not all theatres offer all options.

Accessibility Device Descriptions:

- The **CaptiView Cup holder (CC) System** shows captions on a small display screen attached to an adjustable arm that fits into the theatre seat cup holder.
- **Closed Caption Glasses** have captions projected onto the lenses for viewing while watching the movie.
- **Descriptive Audio Headsets** give descriptive narration throughout the movie.
- **Headsets with volume control** allow for individual volume control.
- **Neckloop receivers** allow people with hearing aids or cochlear implants to receive the sound directly from the sound source and to adjust the volume as needed.
- **Open Captioning** shows captions directly on the movie screen for all viewers to see.
- **Sensory friendly showings** may include low lighting and a low volume in the theatre during the film.
